

1.5.2 *Appendices*

- **Appendix A** describes CEMS installation and certification test procedures, and provides performance specifications for the CEMS and explains how to set the span and range of CEMS.
- **Appendix B** describes the required on-going CEMS quality assurance tests and procedures for CEMS, and includes rules for data validation.
- **Appendix C** provides guidelines for parametric and load-based missing data substitution.
- **Appendix D** provides an optional protocol for estimating SO₂ mass emissions and heat input for gas-fired and oil-fired units.
- **Appendix E** provides an optional protocol for estimating NO_x emissions from gas-fired and oil-fired peaking units.
- **Appendix F** provides equations for converting raw monitoring data into the appropriate units of measure.
- **Appendix G** gives procedures for monitoring and calculating CO₂ mass emissions, for ARP units.
- **Appendices H, I and J** are currently reserved.
