

## LAUNCH

Opening the *SpectraView® Prism Client* is accomplished through a special *Extensible Markup Language (XML)* file. This file has a “.svview” extension and contains settings for the proper configuration of the client. This session file, as it is called, can be double-clicked to launch the *SpectraView® Prism* client.

To start the *SpectraView® Prism* client perform the following tasks.

1. Double-Click on the session file.
2. If a user or system is not yet configured, one of the following screens will result. If any of these error messages occur, contact the System Administrator for assistance.
  - a. The *Not Authorized* error in **FIGURE ERROR! No text of specified style in document.-1** occurs when the application cannot authorize the login for any application privileges.

Figure Error! No text of specified style in document.-1 Not Authorized Launch Error

- b. The *Database Connection* error in **FIGURE ERROR! No text of specified style in document.-2** occurs when the application cannot connect to the database, or encounters a database error or misconfiguration.

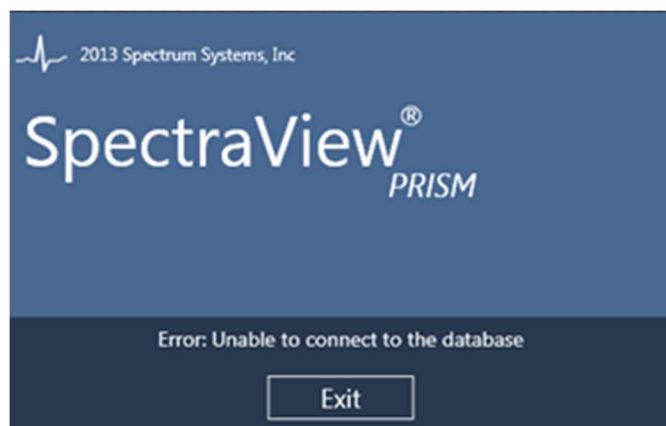

Figure Error! No text of specified style in document.-2 Database Connection Launch Error

- c. The *Tag Service* error in **FIGURE ERROR! No text of specified style in document.-3** occurs when the application cannot connect to the tag service, or encounters a *Tag Service* error or misconfiguration.

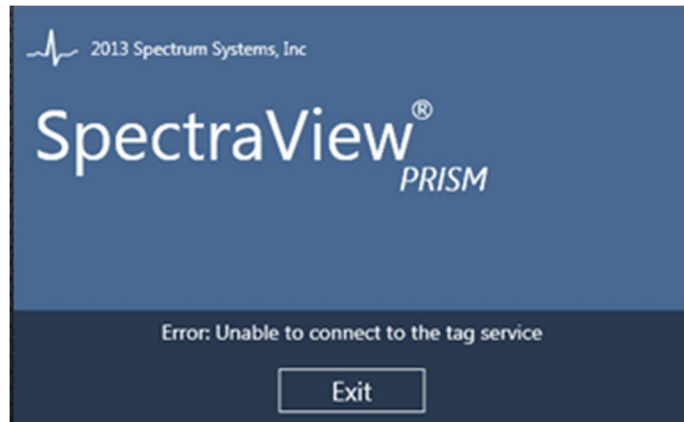

Figure Error! No text of specified style in document.-3 Tag Service Launch Error

3. There are no login actions required by the end-user. If there are no errors, the Main application Window, with the *Overview Tab* selected will appear, as seen in **FIGURE ERROR! No text of specified style in document.-4**.
